

AUGI HotNews Daily

AUGI Annual Meeting is set for tonight...

Don't forget to attend the AUGI Annual Meeting this evening. You will have the opportunity to meet (and thank) your current board of directors.

Following the Annual Meeting is the popular AUGI Beer Bust, which will be held in the Exhibit Hall. And no trip to AU is complete without a commemorative AUGI mug, so make the AUGI Annual Meeting and Beer Bust your Wednesday AUGI Day.

AUGI Top DAUG Competition at the AUGI Booth...

The AUGI Top DAUG competition was introduced at Autodesk University 2000. The contest originally consisted of two parts based purely on AutoCAD 2D. This year AUGI teamed up with KnowledgeSmart for 2011 that allowed us to expand the range of topics for 2011 to include, Revit Architecture, Revit Structure, Revit MEP, AutoCAD Civil 3D, Inventor, 3ds Max (and, yes, AutoCAD 2D!). Contestants may

participate in multiple modules but only take each module once. A combination of test scores and fastest times determines the winner of each module.
